Arts in Education Programs

★ **Performance:** “American Footsteps” offers a dazzling blend of traditional dance and music including clogging, tap, square dance, and Irish step dance. Foot & Fiddle’s dancers and musicians provide the historical interconnection between traditional American dances and their multicultural origins in the European, African and Native American cultures. Foot & Fiddle offers students numerous opportunities to be a part of the show. Teacher and student study guides available.

★ **Square Dance Residency:**

Learning and dancing go hand in hand (literally) as students explore why square dancing has been a popular social dance for centuries. Square dancing develops listening skills and teamwork. Students have an opportunity to experience an art form that fosters a sense of community while building a respect for an American tradition.

★ **Family Square Dance Party:** Everyone can join in the fun and learn to dance together. It is a great fund raising event.
